SCSO Makes Largest One Pot Meth Lab Arrest

On February 17th Detectives with the Shelby County Sheriff’s Office Narcotics division received a complaint regarding the manufacture of methamphetamine at an address on Martin Road in Millington. When they arrived, they questioned two individuals, Yolanda Mackey and Jeffery Rodgers. Rodgers admitted that he had ‘cooked’ meth at his residence on the 4500 block of Valley Stream.

Detectives obtained a state search warrant for the property where they discovered several ‘one pot’ meth labs and ‘smoke bottles’. Upon further inspection, Detectives recovered fifty (50) ‘one pot’ meth labs from the residence and the surrounding wooded area. They also located other items used to manufacture methamphetamine. Shelby County Sheriff’s Assistant Chief Mark Dunbar says, “This is one the largest meth operation arrests of this type in recent history.”

Rodgers was taken into custody and charged with Initiation of a process intended to result in the manufacture of Methamphetamine. The investigation is ongoing and may include additional federal charges. No bond has been set at this time.
